- Team spirit.
- Serious at Work.
- Spirit of organization.

Language

- Arabic
- French
- English

About Me

I'm Daabal Sokaina from Mohammedia, Morocco. I'm a junior engineer in big data and cloud computing, and a full-stack web and mobile developer. I prefer developing with Spring and Angular as I am willing to apply to the position of FullStack Java and Angular engineer jobs.

Professional Experience

Adria Business & Technology | March 2024 - July 2024

Full Stack Developer

This is a PFE Internship. During this time I was working on another project like a digital bank, using Spring and Angular to create a reporting module, create a microservice and solve many problems in the server system.

Education Notional El Jadida | April 2021 - May 2021

Full Stack Developer Spring and Angular

During this internship I developed a platform specially designed for Amo trainers. It allows each instructor to link to training sessions he didn't attend, send his sessions, track his attendance and, if successful, print his certificate. The platform is developed using Spring and Angular.

Education

2021 - 2024 | State Engineer - ENSET Mohammedia

Diploma in computer science engineering, Big Data & Cloud Computing at ENSET Mohammedia.

2020 - 2021 | Professional bachelor's degree - FP Sidi Bennour

Professional bachelor's degree in Computer Science and Mathematics apply option IT at the multidisciplinary faculty of Sidi Bennour.

2018 - 2020 | DUT - EST Sidi Bennour

DUT in Computer Engineering at Higher school of technology of Sidi Bennour

2016 - 2017 | Baccalaureate - Kadi Ayade El Jadida

Baccalaureate of Science in Physics and Chemistry at kadi Ayade high school, El Jadida

Academic projects

- Desktop application for managing and planning projects with JAVA FX.
- REST APIs with spring boot, spring data, jpa, mysql.
- web application Spring (boot, data, mvc, security, jpa).
- Digital-Banking web application with Spring & Angular.
